

ORIONIC HARMONIZING THERAPY (OHT) IS A STRUCTURED HEALING MODALITY THAT IS GENTLE, DEEP, EASY & POWERFUL.

OHT is a cutting-edge vibrational and spiritual method. It transforms negative thoughts and shifts limiting beliefs at a cellular level quickly and effortlessly.

Through the use of vibrational and spiritual tools, OHT creates a "sacred womb" within which change and healing can occur. This system enables one to release trauma without reliving it, in a safe way.

Negative thoughts can have debilitating effects on our lives. By tracing a client's issues to a specific negative thought or belief, OHT transforms the thought and creates change and healing.

Examples of debilitating negative thoughts and beliefs are:

- I'm not good enough
- I'm not safe
- I don't deserve ____ (love, money, support etc)
- I can't make enough money

WHAT YOU WILL LEARN AND EXPERIENCE IN THE PROCESS OF BECOMING AN ORIONIC HT PRACTITIONER:

- The Theory of Orionic Harmonizing Therapy
- The OHT Process and the use of its tools
- Spiritual Development & Healing of the Practitioner
 - a. Lifting of Personal Issues
 - b. Opening Energetic Channels
 - c. Ability to connect with own Higher Self
 - d. Knowledge About Upper Chakra System
 - e. How prayer can manifest tangible results in your life.
- Participate in the uplifting of humanity and planetary consciousness.

This training provides practitioners with the ability to help their clients and themselves to shape their own world by transforming thoughts, patterns and emotions that stand in the way of creating the life they want.

OHT works well independently, in conjunction with psychotherapy, rebirthing and other healing methods, with couples (healing shared issues) and with groups.

OHT CAN BE EASILY INCORPORATED INTO YOUR PRACTICE.

WHAT PEOPLE ARE SAYING ABOUT OHT:

"Janna's work can move the person through their negative thought patterns and beliefs, shifting them mentally and spiritually, at speeds we do not often see in the helping profession. It is my belief that she is working with subtle energies that we are first discovering for use with clients. I recommend her work without reserve."

Sharon Goldblum, PH.D, Faculty of Gestalt Center of NY.

"I think ALL rebirthers should be trained in Orionic Harmonizing Therapy."

Leonard Orr, author & founder of Rebirthing International.
